

Dec. 1, 1982

Dear Mom & Dad,

This is the only piece of mail we've gotten so far for you. I'm also enclosing an article on depression which I thought was real good. None of us has this problem, but it's always something to watch out for.

Diane is close home from school in a few minutes. She was so happy yesterday to learn she passed her math test and is now in 4th grade math!

We might go swimming later on.

P.S. We miss you!

Love, Mary
